PROFESSIONAL EXPERIENCE

Digi Grab Solutions

Hyderabad, India

Accounting Intern

May 2024 - Aug 2024

- Conducted cost analysis across 5 operational cost centres, identifying structural inefficiencies in vendor contracts and overhead allocation; findings directly informed a rationalisation initiative that reduced operating expenses by 10% (~\$46k annualised)
- Prepared monthly P&L, balance sheet, and cash flow statements in Excel alongside 3-month rolling forecasts; established a variance reporting framework flagging deviations exceeding 5% of budget, enabling real-time management decision-making across ~\$20k in operating expenditure
- Standardised month-end accounting workflows by developing Excel-based templates for accruals, journal entries, and reconciliations; reduced audit preparation time by approximately 12-15% and decreased senior accountant review iterations during the year-end close cycle

Pawan Express Logistics Ltd.

Mumbai, India

Financial Analyst

Feb 2022 - Apr 2023

- Constructed and maintained multi-variable operating models in Excel tracking revenue, fuel, payroll, and route-level unit economics across a fleet of 28 vehicles; model outputs underpinned route-specific pricing recommendations that drove an 8% improvement in company-wide EBITDA margin
- Prepared monthly route-level P&L reports across PAN India corridors; identified the Rudrapur–Assam route as unprofitable due to high fuel costs on low freight volumes, directly informing management's decision to reduce trip frequency
- Built 12-month rolling financial forecasts with multi-scenario analysis across volume, freight rate, and cost driver assumptions, informing CapEx decisions and fleet ROI evaluation; produced client-facing pitch books supporting commercial negotiations with corporate freight clients
